

CSCI 3900C Lab #6 (25 points)

Re-work **part B** of Lab 2 in an R Markdown document, adhering to these criteria:

- 1) Any information that was provided as comments in your Lab 2 code should be replaced by ordinary text in your report.
- 2) Place your answer to each question in a separate section.
- 3) Use a level 3 header to identify the section for each main question.
- 4) For item 11, title the section header “Discussion”. Then use level 4 headers for parts a, b, and c.
- 5) Each section should show the full text of the question, followed by the R code used to answer it and the results from the code.
- 6) Put your answer to question #11a in a table; add 1-2 sentences explaining what the table shows.

UPLOAD THE FOLLOWING 2 FILES TO THE LAB6 D2L Dropbox:

- The R Markdown source code (the .Rmd file)
- The compiled report (html, doc, or pdf)
